18 FREE PROMPTS FOR CLAUDE FABLE 5.1

# The complete *Claude Fable 5.1* prompt guide

Claude Fable 5.1 is Anthropic's model for the hardest reasoning and long, careful tasks. Every prompt in this guide is ready to send. Copy one into the Claude Fable 5.1 chatbot on AIFreeForever, add your full details, files or logs, and press Enter.

## Debugging

### Free Claude Fable 5.1 Root Cause Prompt

This build fails with the log below. Find the root cause, not just the first error, and show the fix: [paste the build log]

### Free Claude Fable 5.1 Rare Crash Prompt

My app crashes about once a day with this error and stack trace. List the most likely causes in order, and tell me what to log to find the real one: [paste the error and trace]

### Free Claude Fable 5.1 Trace a Flow Prompt

Here are three files from my project. Trace what happens when a user places an order, from the first function call down to the database table it writes to: [paste the files]

## Research

### Free Claude Fable 5.1 Research Plan Prompt

Plan a 6-week research project on [topic]. Give the question, the method, the data I need, the risks and what to do each week.

### Free Claude Fable 5.1 Test an Idea Prompt

Here is my idea: [describe the idea]. List the three strongest reasons it could fail and one small test for each reason.

### Free Claude Fable 5.1 Paper Review Prompt

Read the paper I attached. Summarise the main claim, check whether the method supports it and list three questions I should ask the authors.

## Science

### Free Claude Fable 5.1 Venus Map Prompt

Explain in 5 simple steps how radar from a spacecraft can be turned into a height map of a planet. Then write Python code that turns a grid of heights into a shaded map image.

### Free Claude Fable 5.1 Experiment Design Prompt

Design a simple experiment to test whether [variable] affects [result], with a control group, the steps and how to read the results.

### Free Claude Fable 5.1 Explain a Result Prompt

Explain why this result is surprising and give three possible reasons for it, from most to least likely: [describe the result]

## Speed

### Free Claude Fable 5.1 Faster Loop Prompt

Here is a slow Python loop that adds up values in a large grid. Make it at least 5 times faster with NumPy and explain each change: [paste your code]

### Free Claude Fable 5.1 Slow Query Prompt

This SQL query takes 20 seconds. Find why it is slow and rewrite it, then tell me which index to add: [paste the query and the table structure]

### Free Claude Fable 5.1 Profile Plan Prompt

My web page loads slowly. Give me a step by step plan to find the cause, starting with the cheapest checks: [describe the page]

## Contracts

### Free Claude Fable 5.1 Contract Check Prompt

Read the contract I attached and list every clause that is unusual or risky for me, with a plain English note on each.

### Free Claude Fable 5.1 Redline Prompt

Suggest changes to this clause so it is fairer to both sides, and keep the changes small: [paste the clause]

### Free Claude Fable 5.1 Compare Versions Prompt

Compare these two versions of the same agreement and list every change that affects money, dates or liability: [paste both versions]

## Games

### Free Claude Fable 5.1 Rhythm Game Prompt

Make a simple rhythm game in one HTML file. Notes fall in four lanes in time with a steady beat, and I press D, F, J and K to hit them. Show my score.

### Free Claude Fable 5.1 Puzzle Game Prompt

Make a sliding tile puzzle in one HTML file with a 4 by 4 grid, a move counter and a button to shuffle.

### Free Claude Fable 5.1 Game Logic Bug Prompt

My game character sometimes falls through the floor. Here is the movement and collision code. Find the cause and fix it: [paste the code]
