6 FREE PROMPTS FOR GEMINI 3.7 FLASH

The complete *Gemini 3.7 Flash* prompt guide

A good prompt for Gemini 3.7 Flash gives the task, the format and the details the result needs. This way, the model can build, analyse or summarise in one go. Every prompt in this guide is ready to send. Copy one into the Gemini 3.7 Flash chatbot on AIFreeForever and change the details to your own. No sign-up for first 3 messages.

Coding

Free Gemini 3.7 Flash Playable 3D game Prompt

Build a playable 3D game where the player controls a small spaceship that dodges asteroids. Use JavaScript and Three.js, add keyboard controls, a score counter and a game over screen, and keep everything in a single HTML file I can open in my browser.

Free Gemini 3.7 Flash Workflow checklist Prompt

Create a business workflow checklist for onboarding a new employee at a small company. List each step from the first day to the end of the first month, group the steps by week, and mark which steps the manager owns and which the new hire owns.

Web apps

Free Gemini 3.7 Flash Interactive landing page Prompt

Build an interactive landing page for a plant care subscription service in one shot. Include a hero section with a sign-up form, three pricing cards, a short FAQ and smooth scroll animations, all in clean HTML, CSS and JavaScript.

Free Gemini 3.7 Flash Layout from a screenshot Prompt

Recreate the web layout in the screenshot I attach as a responsive HTML page. Match the colours, fonts and spacing closely, make the navigation work on mobile, and add placeholder text where the original page has real content.

Documents and long videos

Free Gemini 3.7 Flash Data story from a report Prompt

Turn the annual report I attach into a data story. Pull out the five most important numbers, explain in plain English what each one means for the business, and suggest a chart type for each so I can present it to my team.

Free Gemini 3.7 Flash Notes from a long video Prompt

Watch the two-hour conference talk I attach and give me structured notes. List the main topics in order, summarise the key argument of each topic in two sentences, and quote any statistic the speaker mentions with the time it appears.
